

=====

SECTION 1: TRAINING COURSES

=====

1.1 AI Course – Foundation to Advanced

Price: Rs 4,999 per participant

Duration: 40 hours (online, self-paced)

Current Stock/Seats Available: 150

Description:

Our flagship AI course takes participants from zero to job-ready in artificial intelligence.

Covers machine learning fundamentals, deep learning, neural networks, and practical projects.

Includes hands-on labs using Python, scikit-learn, TensorFlow, and PyTorch.

Certificate issued on completion, recognised by 200+ hiring companies.

Who is it for: Software engineers, data analysts, and professionals transitioning to AI

Prerequisites: Basic Python knowledge

Delivery: Online self-paced with live doubt-clearing sessions every Saturday

Key Topics:

- Python for Data Science
- Statistics and Probability
- Machine Learning Algorithms
- Deep Learning and Neural Networks
- Computer Vision
- Natural Language Processing
- Model Deployment

1.2 Cloud Workshop – AWS and Azure Fundamentals

Price: Rs 2,999 per participant

Duration: 16 hours (2 full days, instructor-led)

Current Stock/Seats Available: 200

Description:

Practical cloud computing workshop covering both AWS and Azure.

Participants get hands-on access to live cloud environments throughout the workshop.

Focus on services most commonly used in AI and data engineering projects.

Eligible for AWS Cloud Practitioner exam voucher discount.

Who is it for: IT professionals, DevOps engineers, developers

Prerequisites: Basic understanding of servers and networking

Delivery: Instructor-led, available in Mumbai, Delhi, and Bangalore

Key Topics:

- Cloud Computing Fundamentals
- AWS Core Services (EC2, S3, RDS, Lambda)
- Azure Core Services (VMs, Blob Storage, Functions)
- Docker and Kubernetes on Cloud
- Cost Management and Optimisation

- Security and Compliance

1.3 GenAI Bootcamp – Building with Large Language Models

Price: Rs 8,999 per participant

Duration: 60 hours (6 weeks, blended)

Current Stock/Seats Available: 120

Description:

Our most advanced programme covering the full GenAI stack.

Build real applications using OpenAI, Anthropic Claude, open-source LLMs, RAG, agents, and MCP.

Each participant builds a capstone project deployed on AWS.

Placement assistance provided to all participants who complete the programme.

Who is it for: Software engineers and ML engineers wanting to specialise in GenAI

Prerequisites: Python proficiency, basic ML knowledge

Delivery: Live online classes 3 days per week plus self-paced labs

Key Topics:

- Large Language Models – How They Work
- Prompt Engineering
- RAG – Retrieval Augmented Generation
- LangChain and LlamaIndex
- AI Agents and Multi-Agent Systems
- Model Context Protocol (MCP)
- Fine-tuning with LoRA and QLoRA
- Deployment on AWS

SECTION 2: SOFTWARE PRODUCTS

2.1 ML Toolkit – Enterprise Machine Learning Platform

Price: Rs 9,999 per license per year

Current Stock/Licenses Available: 80

Description:

End-to-end machine learning platform for enterprise data teams.

No-code interface for data preprocessing, model training, evaluation, and deployment.

Integrates with existing data warehouses including Snowflake, BigQuery, and Redshift.

Includes AutoML capabilities that automatically find the best model for your data.

Key Features:

- Drag-and-drop data pipeline builder
- 50+ pre-built ML algorithms
- Automated hyperparameter tuning
- One-click model deployment as REST API
- Real-time model monitoring and drift detection
- Collaborative workspace for teams
- SOC 2 Type II certified, GDPR compliant

Support: 24x7 email support, dedicated account manager for enterprise plans

Minimum Contract: 5 licenses, 1 year

2.2 Data Dashboard – Business Intelligence and Analytics

Price: Rs 7,499 per license per year

Current Stock/Licenses Available: 60

Description:

Real-time business intelligence dashboard connecting to all major data sources.

Pre-built templates for sales, HR, finance, and operations analytics.

Natural language query – ask questions in plain English and get charts.

Embeddable widgets for integration into existing internal portals.

Key Features:

- 100+ data source connectors
- Real-time data refresh
- Natural language to SQL query
- 50+ chart and visualisation types
- Scheduled email reports
- Mobile-friendly responsive design
- Role-based access control

Support: Business hours email and phone support

Minimum Contract: 3 licenses, 1 year

SECTION 3: ENTERPRISE PACKAGES

3.1 Startup AI Package

Price: Rs 49,999 per year

Includes:

- 10 AI Course licences
- 5 Cloud Workshop seats
- 1 ML Toolkit licence
- 8 hours of AI consulting

Best for: Startups and small businesses beginning their AI journey

3.2 Enterprise AI Transformation Package

Price: Rs 2,49,999 per year

Includes:

- Unlimited AI Course and Cloud Workshop seats
- 20 ML Toolkit licences
- 10 Data Dashboard licences
- 1 GenAI Bootcamp cohort (up to 20 participants)
- 40 hours of AI consulting and implementation support
- Dedicated Customer Success Manager

Best for: Large enterprises running company-wide AI upskilling programmes

SECTION 4: CONTACT AND PURCHASING

Sales Team Contact:

Email: sales@techvision.in

Phone: 1800-TECHVIS (1800-832-4847) – toll free

WhatsApp: +91 98765 43210

Sales Office Hours: Monday to Friday, 9 AM to 7 PM IST

Demo Requests: demo@techvision.in

Partnership Enquiries: partners@techvision.in

Payment Options:

- Bank transfer (NEFT/RTGS/IMPS)
- Credit card (Visa, Mastercard, Amex)
- UPI for amounts up to Rs 1,00,000
- Purchase order accepted from corporates with credit terms up to 30 days

All prices are exclusive of GST (18%).
